

Maureen Ehrenberg
Global Head of Digital Facility and Asset Management Services, WeWork

Maureen Ehrenberg is the Global Head of Digital Facility and Asset Management Services for WeWork's Powered by We segment. Upon joining in 2018, Maureen launched WeWork's Digital Facility and Asset Management Services offering for Powered by We, a full-service Strategy, Services and Technology solution for CRE. She is leading WeWork's growth in the global digital facility and property services market, responsible for developing and implementing products and services that enable Corporate Real Estate, Facilities leaders and real estate investors to unlock the value of their portfolios. She is responsible for designing service delivery systems with processes and digital solutions that increase productivity, comfort and support the future of work.

Ehrenberg's understanding of how to drive value and deliver on strategies has earned her the reputation of an innovator among real estate executives. She is known for delivering break through results and service innovation through creative, value-add solutions with a focus on ROI.

Prior to joining The We Company, Maureen was the President of Global Integrated Facility Management & International Director at JLL. Prior to that she served as Global Director of Facility Management at CBRE. Previously, she was a Principal at the management consulting firm, Expense Management Solutions and before that she served as Executive Officer of Grubb & Ellis Company, President of its Global Client Services Business as well as CEO of its Management Services Subsidiary.

Maureen's extensive industry experience combined with her consultative customer approach and her deep commitment to client service, has enabled her to build a successful track record of delivering industry leading and transformative solutions within a dynamic and complex industry.

In 2018, Real Estate Forum Magazine inducted Maureen into its Hall of Fame as a leading woman of influence in commercial real estate. She was honored in 2018 with a lifetime achievement award by RealComm as one of 20 visionaries who have changed the industry through technology.

Education

Ehrenberg earned a BSc Honours in Economics and Accountancy from the City University, University College London. She is a Counselor of Real Estate (CRE), a Fellow of The Royal Institute of Chartered Surveyors (FRICS) and a member of Lambda Alpha International (LAI), the honorary society for land use economics. Ehrenberg is a Licensed Managing Broker in the State of Illinois.
